Dear Sir,

REF: INFORMATION UNDER RTI ACT '2005

1. Does Railway Board has a role or guideline in respect to RDSO vendor approval policy of different safety, critical, non-safety, non-critical and other procurable items purchased by zonal Railways?
2. Is there any available defined policy of RB for each of the following -
(a) To create a vendor base (through RDSO) for safety or critical items or
(b) To create a vendor base (through RDSO) for non-safety and non-critical items or
(c) To create a vendor base (through RDSO) for items which are actually raw material required in the manufacture of a safety or critical item or
(d) All of the above.

Please provide such policy for each case in this manner :-

Sl. No.	Types of items	Yes/No	Policy No. and Date	Whether policy is of RDSO or Railway Board
1	Safety item			
2	Critical item			
3	Non-Safety item			
4	Non-critical item			
5	Raw material required in the manufacture of a safety or critical item			
6	Other items, if any			

'Yes' to be written for availability of a defined policy and 'No' to be written if there is no policy.

3. Is it a discretion of RB or RDSO officials or there is a scientific/logical/rational laid down policy for procurement and RDSO approval of different safety , critical, non-safety, non-critical items, etc. as pointed out above ?

Thanking you,

Yours sincerely,

M. Bhattacharya
